PROFESSIONAL SUMMARY

Motivated and detail-oriented MCA student at Lead College, Palakkad and Completed BSc. in Computer Science from Mahatma Gandhi University. Skilled in Python, Java, and HTML, with a strong passion for building efficient and user-friendly applications. Eager to apply technical expertise and problem-solving abilities in a dynamic professional environment that encourages learning and innovation. Interested in AI tools, web technologies, and creative software-driven solutions.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML5, CSS, Java

Frameworks & Libraries: Django, Flask, REST API design, CRUD operations

Databases: MySQL, SQLite, database schema design, query optimization

Tools & Platforms: Git, GitHub, VS Code, Linux (basic), Postman

PROJECTS

Blood Bank Management System

Python, Flask, MySQL, HTML, CSS, JavaScript

- Developed a full-stack web application for donor registration, real-time blood inventory tracking, and request management across 3 user roles (Admin, Donor, Requester).
- Designed RESTful APIs using Flask for CRUD operations; integrated MySQL for structured, query-optimized data management.
- Implemented inventory alert logic to flag low-stock blood groups, improving response time for urgent requests.

Hostel Management System

Python, Django, SQLite, HTML, CSS, JavaScript

- Built a web-based room allocation and booking system used to manage 3 roles: Admin, Warden, and Student with distinct access permissions.
- Designed a normalized SQLite database schema to handle room records, bookings, and payment transactions with zero data redundancy.
- Integrated payment tracking module allowing admins to view outstanding dues and generate per-student financial summaries.

Loan Management System

Python, Django, SQLite, HTML, CSS, JavaScript

- Built a role-based loan application portal with separate Admin and User dashboards for loan processing, approval, and repayment tracking.
- Engineered a structured database for customer profiles, loan records, EMI schedules, and transaction history, supporting full loan lifecycle management.
- Reduced manual tracking effort by automating approval status updates and generating transaction logs for each loan account.

EDUCATION

Master of Computer Applications (MCA)

Lead College of Engineering & Technology, Palakkad

Aug 2025 – May 2027

B.Sc. Computer Science

St. Thomas College, Kozhencherry

Aug 2022 – Mar 2025

CERTIFICATIONS

- Fundamentals of Digital Marketing
- Prompt Engineering for Developers
- Introduction to Cybersecurity
